

Charity Bagels Fundraiser for your School

Objective

Raise \$500-\$1,500 for whatever worthy cause your organization is thinking of supporting. To hit \$1,000 (which we've exceeded with our fundraisers so far), we'd need to collect donations and provide kits to 30-40 families.

Charity Bagels will...

- Write an email message (approved by the school) to be sent to parents & guardians, that will include a link to pictures and a video of the bagel kit on the website.
- Provide the kits at \$22.50
- Handle all customer inquiries, etc.
- Manage purchases through a short google form attached to the initial email that interested parents/guardians fill out.
- Share the list of those who've purchased with the school.

Your organization will...

- Collect checks (all checks will be written and sent to the school).
- Approve the fundraising email that will be a direct message to parents/guardians, and send it out.
- Come up with a meaningful issue that can be made better for \$500-\$1,500. This will help parents/guardians get excited for the fundraiser. Hanover High School made their goal to offset the cost of senior activities for disadvantaged students.
- Oversee kit distribution. This involves finding a registrar who's willing to keep the purchased kits in their office and mark off on a spreadsheet whenever someone collects their kit.

This fundraiser will be a fun, family-oriented activity that fully embodies community involvement. It'll bring in \$500-\$1,500 for your school and allow Charity Bagels to field test a fundraising distribution channel (that could end up being a national high school fundraising activity).
